

430-500 Poly Line

Poly Line for Small Jobs

Greenlee now offers poly line in a convenient 500' package. This smaller size is perfect for use on service trucks where storage space is limited, and it is also very convenient for directly pulling smaller electrical and communications wires where long lengths aren't needed.

The 430-500 poly line is the same 210 lb. (934 N) breaking strength line used in the larger buckets, and it comes in a tube with a prepunched hole for dispensing the line without tangling. The line can be blown into conduit and then used to pull in a larger pulling rope, or it can be used directly to pull in smaller wires.

PRODUCT FEATURES

- **Handy size** for easy storage and for use on smaller pulls.
- **Comes in ready-to-use cylinder** with pre-punched hole in the lid.
- **Can be used directly from the container** with power fishing systems.
- **Resists tangling** when dispensing.
- **Rot and mildew resistant.**

SPECIFICATIONS

Length:	500 ft. (152 m)
Strength:	210 lbs. (934 N) average breaking strength
Weight:	1 lb. (0.5 kg)
