

776 High Performance ACSR Cable Cutter

Cut ACSR the simple, easy way.

The new Greenlee® 776 High Performance Cable Cutter combines the advanced mechanism of the popular 773 and 774 cable cutters with specially hardened blades designed specifically for making cuts on a broad range of ACSR cable. The result is a cutter that is **simpler** to use, requires **less handle effort** and is **faster** than competitive tools.

The 776 has a patent pending two-speed mechanism that closes the blades rapidly until they contact the cable, and

then it automatically shifts to a power speed so that handle effort remains low while making the cut. And when the cut is complete, the 776 is the only ACSR cable cutter that opens automatically to get ready for the next cut.

The 776 has the ability to cut ACSR up through 636 (with a maximum steel core diameter of 5/16"), yet it is only 20" (508 mm) long making it easy to fit into truck bins. The blades are ground and hardened specifically to cut ACSR.

PRODUCT FEATURES

- **Two-speed mechanism** saves cutting time by closing the blades rapidly and shifting to normal speed to perform the cut.
- **Patent pending mechanism** opens the blades automatically when the cut is complete.
- **Completely new ratchet mechanism** provides excellent durability.
- **Short length** fits easily into truck bins.
- **Durable, lightweight fiberglass handles.**

SPECIFICATIONS

Capacity	Cuts ACSR through 636 kcmil with steel core diameters less than 0.32". Specifically cuts: All 336.4 and Smaller ACSR 397.5 - Brant, Chickadee, Ibis 477.0 - Pelican, Flicker, Hawk 556.5 - Osprey, Parakeet 605.0 - Peacock 636.0 - Kingbird, Swift, Rook
Length	20" (508 mm)
Weight	6.2 lb. (2.8 kg)
